Love your garden

with Composite Wood

Low maintenance timber alternative decking, fencing and garden rooms from Carrington Windows composite wood are the environmentally friendly way to enjoy your garden all year round.

Unlike plastic decking and fencing, Composite Wood has the natural beauty and feel of real wood. With 60% timber content, it offers all the benefits of wood without the splinters or maintenance.

Carrington Windows Composite Wood decking and fencing is fully RoHS Green Product compliant and is manufactured from recycled material, making it the green choice for your garden.

Durable, strong with lifelong beauty
Composite Wood garden products are made using a unique homogenous wood polymer construction that maintains its high performance for years and years without the need for time consuming maintenance and painting.

Carrington Windows composite wood products are constructed from ethically sourced, traceable recycled wood from timber mills and recycled plastic polymer.

Our RoHS Green Product compliant manufacturing process uses only the best quality, unsoiled wood content.

Garden Offices

Ready to go to work with a low maintenance, fully insulated, timber alternative Composite Wood garden office.

More people are choosing to work from home so they can be flexible with their time and to avoid the daily commute.

Finding a space to concentrate away from the distractions of the house can be difficult though.

A garden office is one of the most practical ways to create a dedicated space for working from home. It lets you have a personal space all to yourself to help you concentrate.

Practical ways to create a dedicated space for working from home

Do I need **planning** permission

for a Composite Wood Garden Room?

In most cases you will not need planning permission to erect a garden room - if the eaves height is under 2.5 and it doesn't project beyond the front wall of your house.

In general, adding a stand-alone, single storey garden room to the rear or side garden is usually allowed under Permitted Development.

However, we recommend that you check the Government's Planning Portal online before starting any work on a garden room to ensure you comply with the rules. The planning portal refers to garden rooms as outbuildings.

In most cases you will not need planning permission

Garden Room?

Composite Wood Garden Rooms

the low maintenance alternative to timber

No plastering
or decorating

The inside walls
are self-finished.

Composite Wood Garden Room walls are made from **60% recycled wood** and **40% polymers** from recycled plastic including bottles and packaging.

This creates a durable composite product which will withstand everyday use and is protected from the British Weather. Composite Wood is extremely low maintenance, so no repainting or staining is needed. Once your Composite Wood garden room or office has been installed, its ready to use to chill, work or play.

Composite Wood Garden Rooms

the low maintenance alternative to timber

Use all year round

The fully insulated walling and roof regulates the temperature whatever time of year, keeping it cool in the summer and warm in the winter

Decking

Composite Wood is colour stabilised to protect it from UV rays and other fading effects.

Modern Composite Wood decking is perfect for gardens, patios, pool areas and holiday homes. Its recycled wood polymer construction makes Composite Wood so much more durable than timber. Whatever's thrown at it - children, bicycles, barbeques, party-goers, paddling pools or garden furniture - it will withstand it all and keep its natural beauty.

Scrubbing and staining your deck every year is a thing of the past with Composite Wood decking. It comes in 4 natural shades that resist the fading caused by sunlight and air pollutants, the colour is also constant through the entire core of the product.

Clever concealed fixings give a neat, flawless finish which can be installed quickly and easily making Composite Wood the ideal decking choice.

With 4 colour options you can create decking designs to give your garden, holiday home or patio a truly stylish look.

Relax, it's low maintenance

Composite Wood decking doesn't need painting, staining or sealing, so sit back and enjoy.

Pass the stiletto test

Composite Wood has a 60% timber content to prevent damage. It is strong enough to withstand stiletto heels and is naturally slip resistant and splinter free making it safer for children, visitors and pets.

Decking

Installed quickly and easily for minimal inconvenience.

Woodgrain Composite Decking

Natural looking woodgrain Composite Decking, for an authentic alternative timber decking without the maintenance

Woodgrain composite decking from the Composite Wood company allows you to create a stylish decking area with all the performance features of original composite decking.

Beautiful, natural looking woodgrain composite decking is perfect for garden, patio, pool and holiday home decking areas. It comes in the same choice of Wild Brown, Antique Ash, Salt Lake Silver or Ancient Black colours as our other composite wood products, so you can design and create a bespoke garden layout to match your style and colours.

And best of all - it doesn't need **painting** or staining!

Beautiful, **natural** looking woodgrain in a selection of colours!

Woodgrain Composite Decking

Balustrades & Railings

Composite Wood balustrades and railings complete the job in style. High quality and durable, you can choose to perfectly match the decking colour or create a contrast with **4** colour options.

For a clear view we offer a toughened glass balustrade system that is great for caravan and holiday home decks or simply looking out to your garden. Just ask us for details.

With a variety of stylish joint options, capping and finishing solutions, Composite Wood balustrades and railings are sturdy and simple to install to any decking area, garden, outdoor space or holiday home.

Finish your decking area in style

No painting or staining – just install and admire.

Quick installation with seamless finishes.

Balustrades & Railings

Installed quickly and easily for minimal inconvenience.

Fencing

Composite Wood fencing is durable, water resistant and strong. The natural woodgrain finish is fade resistant and available in four beautiful colours; Wild Brown, Salt Lake Silver, Ancient Black and Antique Ash.

Composite Wood fencing can be installed using high strength, colour matched Composite Wood fence posts or they can be

fitted easily into existing concrete posts. Low maintenance and hassle free, there's no need for painting or staining. The high strength, weatherproof construction of Composite Wood means your fencing will withstand the wind, sun, rain and knocks of garden life.

Composite Wood also offers a more secure fence than traditional timber.

Kind proof fencing

Our Composite Wood fencing comes with a natural wood look for a stylish finish.

No painting or staining - just install and forget

The Permanent Fencing

Fencing

Installed quickly and easily for minimal inconvenience.

Holiday Home Decking & Balustrades

Holiday homes are a place of fun and relaxation so you don't want to spend time cleaning and treating your deck.

Composite Wood decking is slip resistant and achieves all the regulations and requirements for holiday park use. It can be installed quickly and provides an impressive outdoor area to relax, enjoy barbeques and socialise.

With **4** different colours of decking you can create a unique design creating a truly stylish look for any holiday home or caravan.

Composite Wood Decking and Balustrades are low maintenance with no need for painting, staining or sealing.

Resistant to Mould and Algae reducing the risk of slipping, regardless of weather or location.
